Executive Director

NOTE FOR: Acting DS&amp;T

SUBJECT: Clandestine Technical Collection

The chairman of the EXCOM's Clandestine Technical Collection Committee (CTCC) is seeking guidance on whether or not to continue that Committee's functions. The CTCC coordinates on requirements, technology, and operational details for all proposed emplaced sensor activities, including DoD projects which require CIA support. Earlier this year, the EXCOM took the position that the CTCC could be discontinued if its functions were included in an element of your organization.

[REDACTED]

I would appreciate a short briefing on the new arrangement for centralizing clandestine sensor activities in OTS, including provisions for integrating DI and DO input in the process. I also would appreciate your thoughts on how to ensure early access to the relevant DoD activities.
